

PSWC 100

Residential water softener with metered control valve for greater efficiency.

Brought to you by Aerus, an innovator in water technology, to the highest standards.

Electronic control valve
by Aerus Origins™

Features & Benefits

- Electronic control valve with “Smart Technology” for up to 50% less salt usage
- Audible alarm for “add salt reminder”
- Premium grade 10% cross-linked water softener resin for long life; NSF certified
- Decorative design with light gray tanks and dark gray tank collar
- Metered valves so systems regenerate only when necessary
- Operates with less water and salt per regeneration
- Mineral tank, rated for pressures to 600 psi; NSF certified; light gray
- User friendly programming with full diagnostics
- Adjustable cycles for greater efficiency and more effective operation
- Large LCD screen display
- Bypass valve is included
- Quick connect fittings used on brine line and drain line
- 20' of drain line tubing is included
- Brine tank holds up to six bags of salt
- Brine tank includes brine well, safety float, tubing and salt grid
- Self-charging capacitor maintains time of day during power outages
